SEBASTIAN VALDEZ
Developer & Designer

Profile
Argentina - Buenos Aires - San Isidro

Digital media all-rounder. My expertise spans from web programming to video production, including graphic design, illustration and 2d animation. Three years worth experience as an RPA Developer, 2 of them full-time, with proven communication and problem solving skills. Everything I do, I do because I enjoy it; I'm a creative and proactive mind, and every new experience I find valuable and constructive.

Experience

Data Entry Clerk
ADEA - Full-Time - 2019
Worked on a late-term government project to digitalize old registries for entrances to and departures from the country.

Web Developer & Graphic Designer
Ñandutí Publicidad - Freelance - 2021
Worked as a freelance Full-Stack Web Developer and Designer, as well as a general purpose Graphic Designer and Webmaster, at advertising agency Ñanduti Publicidad, doing maintenance for a digital magazine known as Salud Familiar whose web framework was based on Laravel.

RPA Developer
Ctrl365 - Full-Time - 2022/2024
My responsibilities were to design, build, test, implement and write documentation for Blue Prism automation tasks. The unit I was assigned to worked with direct communication between Developers and End-Users for the Analysis and Testing phases.

My unit's client was the chilean branch of Santander Bank. We followed their technical guidelines and requirements on our design and implementation solutions.

Freelance Hire
Various - Freelance - 2020/Present
Worked on myriad of projects throughout my active years, such as design and development of web applications, digital automation and technical support. I always try to be open and available to join new projects that could use my expertise and/or allow me to test new grounds.
